

Dear The Oklahoma State House, The Oklahoma State Senate, and Governor Mary Fallin,

We are pleased to present you with this petition affirming this statement:

"I oppose ODOT's poor planning and an administration that proposes an unneeded, unwanted, and poorly thought out bypass of US69 Highway that passes through Muskogee. The cost will be at least \$80,000,000.00 and would only save from 2 to 8 minutes of time to travel through Muskogee. This is an example of bad government! Please take whatever action necessary to ensure that this bad idea by ODOT is never implemented!"

Attached is a list of individuals who have added their names to this petition, as well as additional comments written by the petition signers themselves.

Sincerely,
Gerald R Miller

Please do not proceed with this bypass! Many businesses depend upon the traffice going through Muskogee on Hwy 69!

Phyllis George
Muskogee, OK 74401

May 2, 2018

Left Muskogee long ago because of stuff like this. When you bypass a town you are taking away possible income to the locals. The time people save by going around Muskogee in no way warrants the amount of money being spent to build it. Your fixing something that is not broken. Take the money and fix things that truly need it! My guess is someone is getting paid top dollar for land that can't be developed OR they have plans to develop the land along this bypass - but somebody is making money off of this decision!

Please do not destroy the Castle of Muskogee! It brings in great revenue for the city of Muskogee, and it brings people from out of state. It is also hosts amazing events that a ton of people look forward to every year. It's a place that allows people to be themselves while they time travel (Ren. Fair), or while they are being scared out of their wits (Haunted Castle). The Castle is important to hundreds and hundreds of people. Save the Castle!

We cannot currently fund our dilapidated bridges. Why are we spending excess monies on new ones to save 2-8 minutes of travel especially when we must still maintain Hwy 69 improvements at a cost almost equal to the new bypass. What a waste of tax payer's dollars!

Connie (Honea) Scrivner
Cape Coral, FL 33990
Mar 22, 2018

Grew up in Muskogee and moved to Tulsa and then I left Oklahoma because of their good ole boy system and lack of good jobs. All of the next generations of our family except one have left Oklahoma for better opportunities. If Oklahoma would spend this money on schools and bringing jobs to the state I would come home. ODOT's greed and poor planning is a waste of taxpayers money.... this money needs to be used to improve the school system bringing back classes and improving the curriculum of education to entice businesses to Oklahoma and besides that Oklahoma has some of worse roads in America because the jobs are given to lowest bidder and Oklahoma get the cheapest materials to build bad roads. ODOT's bad decision is seen from outside the state.

Pat Perry
Broken Arrow, OK 74014
Feb 27, 2018

I have lived here most of my life. There has got to be something else more important that needs to be done here in Oklahoma. This would murder Muskogee, and destroy so many lives. Basically all of our tourism income here comes from Hwy 69. This will also be unnecessarily costly as we are as a state already having problems repairing our crippled infrastructure. Please, please think about what exactly you're going to be doing to our city and find another way.

Danielle Gobin
Muskogee, OK 74403

Feb 25, 2018

ODOT's prior plan to improve the South end of Highway 69 through Muskogee, in the same manner as it did for the North part of Highway 69, with other adjustments, such as synchronized stop lights would go a long way toward moving traffic much better through Muskogee at a much lower cost. Please spend all the money that would be saved on repairing roads that we already have. It is not a function of ODOT to undermine the economic strength of the towns and cities of the state.

Weldon Stout
Muskogee, OK 74403
Feb 24, 2018

Brittany Conly
Sand Springs, OK 74063
Feb 24, 2018

My feeling is by continuing with this bypass project it will cause great financial distress to busniesses along Hwy 69. I am sure the state of Oklahoma and or the city of Muskogee have already paid or are paying incentives and providing tax breaks to attract the busniess that has grown around this area and it is beyond me why ODOT would continue with this project with and throw all that jas already been done. If only truck traffic is the issue it seems it would be more cost effective to route that traffice around the city via the turnpike toll free and allow the busniesses that are thriving in that area to continue to do so.

Darrin Perry
Muskogee, OK 74403
Feb 7, 2018

Johnina Wardwell
Muskogee, OK 74403
Feb 7, 2018

ODOT has stated that upgrades to improve the current 69 HWY route thru Muskogee would cost about 1/2 of their new proposal. When ODOT was asked who "from Muskogee" was included in the planning of their proposed by-pass... they responded "no one"! They obviously are not doing this to benefit the community of Muskogee or the financial well being of the State of Oklahoma! The By-pass should be stopped and the current road should be upgraded to improve safety and traffic flow.

I have a part time job in Muskogee and this would severely impact my ability to work and make the money I need. Also, don't waste \$80 million on a bypass road. Spend that money on fixing bridges in this state or spend it on making better roads for people in the country. I have nearly snapped an axle on roads like Indian Meridian in southern OK. Turn gravel roads into asphalt instead. Use your constituents tax dollars wisely to repair instead of build new. It is a waste of financial resources and a waste of environmental resources. Think with your head instead of your wallet.

Feb 6, 2018

Please take the time to listen to the meeting that was held in Muskogee on Tuesday December 19, 2017. Even though the meeting was held at 2:30p.m., more than 400 concerned citizens, city and county officials, and businessmen came to offer alternative options/suggestions to the proposed highway 69 bypass. Secretary of Transportation, Mike Patterson, and ODOT representatives were present and explained their reasonings for the bypass. However, some of the highway 69 accident data is skewed. An example ... a fender bender that occurs in a parking lot that belongs to a business with a highway 69 address is considered a highway 69 accident! PLEASE RECONSIDER ! THERE ARE OTHER VIABLE OPTIONS!!!

My family and I now live in Norman, but I was born and raised in Muskogee. We visit Muskogee several times a year. It's been refreshing to drive around the west side of town (and downtown) these last couple years, seeing the repairs, growth and development. I ask that you stop the plans created by ODOT that will bypass - and possibly permanently damage - a main area of town. (*Not to mention, enough money has already been spent a few years ago to help with traffic flow when US69 was widened.)

With all the many, issues of our roads that locals have to drive everyday, why must we fix something that is not broken, however overlook the broken and refrain from repairing this? Seems like a misappropriation of funds, as a tax payer, and Veteran I have many concerns of how my governor and my senators in which I trusted when I voted are spending my hard earned money. Destroying businesses and overlooking our roads, highways and interstates, real needs is beyond me. It will cause me pause when I stand in the voters booth next election to rethink where we are and where we could be.

Frank Rock
Muskogee, OK 74403
Feb 2, 2018

Highway 69 is one of the busiest highways in Oklahoma, and probably one of the highways in the roughest shape, in terms of condition. \$80-100 million would be able to resurface a large portion of that highway I would imagine. I now understand the reasoning of why the state is currently in such a bad economical situation. This reroute would take away taxes from the sales of food, hotels, and other goods. That doesn't help that problem, it hurts it.

Brandon Blevins
Muskogee, OK 74403
Feb 2, 2018

This project will go through my grandparents home and my church. It is not a good idea. Plus it will damage businesses along Hwy 69. How about make the entrance of the Muskogee turnpike eastbound free and loop truck traffic around peak Blvd and reconnect to 69 north where the turnpike intersects? Oh and take care of the existing road instead of just building a new one.

Tulsa, OK 74128
Feb 1, 2018

Elizabeth Stephens
WICHITA, KS 67204
Feb 1, 2018

Why kill the economy of an entire town? Hotels, restaurants, QT with truck/semi service, Pilot, Creek Nation, other businesses INCLUDING MY OWN have invested millions into this corridor and ODOT wants to divert their lifeblood (traffic) somewhere else. This is RIDICULOUS!!! Furthermore, by publicly airing this plan ODOT has KILLED any future development along that corridor including the booming HWY 69 & Shawnee intersection. NO business in their right mind is going to invest there if ODOT is going to take away the ONE thing that makes that region attractive to potential business which is the TRAFFIC!!! To make matters worse, they are going to draw their decision out for several years???. Government should facilitate economic growth, NOT kill it. The most logical and cost effective solution is to widen the HWY 69 corridor between Okmulgee and Peak Blvd. the same way they widened it between Shawnee and Okmulgee. PROBLEM SOLVED!!!!

DR. PATRICK OREILLY
Muskogee, OK 74401
Feb 1, 2018

They already built one bypass that no one uses, so why build another?

This will destroy our local economy please do not allow odot to build this bypass around muskogee its a major waste of money and also why dont they take that money and use it to update local roads and major roads going in and out of muskogee!

Aaron cody standifer
Muskogee, OK 74403
Feb 1, 2018

If this by pass goes through, the by pass will only be a short distance from my home, this is part of the reason we moved to OK, was to get away from highways like this. People's hurry to get from town to town should not out weigh those that live in the area

Cathy Rogers
Muskogee, OK 74401
Feb 1, 2018

Roy Rouell
Muskogee, OK 74401
Feb 1, 2018

Please do not bypass traffic around our town! 100's of jobs will be lost! Getting someplace faster should not outweigh the life of a city!

Linda Ferguson
Muskogee, OK 74403
Feb 1, 2018

I oppose ODOT's poor planning and an administration that proposes an unneeded, unwanted, and poorly thought out bypass of US69 Highway that passes through Muskogee. The cost will be at least \$80,000,000.00 and would only save from 2 to 8 minutes of time to travel through Muskogee. This is an example of bad government (as usual here in OK). Please take whatever action necessary to ensure that this bad idea by ODOT is never implemented!

Dustin Belvin
Durant, OK 74701
Feb 1, 2018

Get busy and fix the roads we have from Porum to 69 for starters.. Stop waiting for the "Indians" to do it.. and many other roads before you want to jump in and start a project like this that will put many businesses on the West side of Muskogee out of business..

Faye R Gibson

Feb 1, 2018

With all the roads and bridge problems, combined with major budget problems, this makes absolutely no sense at all. Someone must own property near where the new route proposal is going to go and stands to make a lot of money off this. My understanding is Peake was made the way it was as a route around the main drag of 69 highway. Enforce this.

Greg Dubin
Muskogee, OK 74403
Feb 1, 2018

Fix what is here including the traffic lights. They are screwed up and have been for months!

Michael McMillan
Muskogee, OK 74401
Feb 1, 2018

The Castle of Muskogee, generate a lot of income and incentives to the community. I do think there are other options for the proposed route. Think of the money earned.

Feb 1, 2018

Robert Segrest
Muskogee, OK 74402
Feb 1, 2018

Funds have already been spent to 6 lane US69 between Shawnee Bypass and the Creek Nation Casino. Why "waste" these dollars by spending an additional \$80M to save only 8 minutes travel time? Businesses have invested in Muskogee by building along US69. Should these businesses' investment and job creation be nullified? Since businesses along US69 collect state sales tax it would be interesting to know the annual amount collected. If all or any portion of the \$80M is coming from state funds, it should be used for other purposes such as increasing teacher pay or reducing teacher out of pocket health insurance costs.

David Stiles
Wagoner, OK 74467
Feb 1, 2018

Efforts should be made to revitalize the existing 69 highway and make it safer for the travelers and businesses. The current work in Mcalester with the access roads is what the Muskogee 69 hwy needs, not a re-route of traffic.

Katy Marshall
Hulbert, OK 74441
Feb 1, 2018

I go to this event every year, and not only do I enjoy myself here annually, I have a good handful of friends who call this place a second home and have a second family here. It's not right to take a part of their land that gives people a potential extra 2 to 8 minutes when driving through Muskogee. People who live in this state know it's far, so they plan accordingly whenever they drive there, or through there. The very lovely owner of this land has worked hard to build his dream and has employed some of the best people to help him build his dream. It's not right to tamper with their hard work. And you'd also be taking away from the customers experience. It's not fair all around.

Feb 1, 2018

The state is currently experiencing a budget shortfall that has crippled our schools, our senior care, and other services. Muskogee would not benefit from this project, because the losses to businesses along Highway 69 would be catastrophic. The loss of tax revenue from those businesses would be a death blow to an already struggling local economy. This project will not help Muskogee, it will only cut us off from the vital traffic that is the lifeblood of this community. Please reconsider, and stop this project from happening.

State budget shortfalls as far as the eye can see, and ODOT forces communities to comply with ODOT demands. Just look at the mess ODOT has created in McAlester. Millions wasted, wasted. Some ODOT genius is dreaming up ideas on how to kill your town next, spend other people's money, and keep his buddies "contractors" rolling in the dough. ODOT can't even enforce contract deadlines, fines, or penalties. If you want your small town to grow, you need tax dollars being paid by all those travelers, otherwise the dust bowl will be returning to every small town in Oklahoma!

Stop messing with the route of the roads and fix the condition of the roads@

Patricia A McMillan
Muskogee, OK 74403
Feb 1, 2018

This is a complete waste of taxpayer money. This would be devastating to Muskogee businesses and it would save travelers' precious LITTLE time. Not to mention they want it to cut right through The Castle of Muskogee!!! I have both family members and friends who work or volunteer there. I love the place and have been attending the Renaissance Faire and Haunted Castle events for years. There are so many other underfunded projects, programs, and priorities in Oklahoma right now: Our crumbling bridges and pothole riddled roads, mental health, education, healthcare, and the list goes on. I say NO to this project!

Lisa Cypert
Broken Arrow, OK 74011
Feb 1, 2018

I believe this to be one be if the most ridiculous decisions to be made. I can understand that the big curve on HWY 69 near the Oktaha/Boynton exit is very dangerous but bypassing the entire town of Muskogee is totally unnecessary. Fix the curve at far less the money. Fix the traffic lights to coordinate for smoother traffic flow for far less money. Find a better idea than what would ultimately KILL this awesome town!!

Cheryl Purdin
Muskogee, OK 74403
Feb 1, 2018

I don't think that you guys should do this because it's cutting into people's yards and taking away from the renaissance festival leave things the way they are

Vian, OK 74962
Feb 1, 2018

Muskogee is a good place to travel through. Don't just bypass this city. They need to keep their businesses growing. There are some beautiful lakes and views in the area that shouldn't be missed. I like Muskogee. Come on people. Don't you think there are lots of better things our tax dollars should be spent on. Fix the roads we have. Don't give us another one that will be in disrepair in a few years too. Give us a scenic route if you really have some dollars to get rid of before new budgets come out. Another thought, invest in our small business owners. And help someone new get a much deserved start. So many great ideas that government doesn't want to hear about. I'll bet I'm not the only one with better ideas than our elected officials. Let's hear some from others.

Donna David
Sand Springs, OK 74063
Feb 1, 2018

This unnecessary plan to spend millions of dollars to save 5 minutes of driving time would devastate Muskogee. It needs to cease being considered.

The plan that costs \$80 MILLION to save two to eight minutes is absurd. If it saved the maximum of eight minutes, we're looking at paying \$10 MILLION per minute saved. Is it REALLY worth that? Understandably, roads are not cheap. However, so much better can be done with that kind of money. Schools and jobs (that aren't temporary to build the road) are what come to my mind.

Feb 1, 2018

Building a road through this sight will be detrimental to the city of Muskogee. The revenue brought in by this property is enormous. There are patrons that travel here for this festival from all over the US and affar. Tens of thousands attend each spring, as well as seasonal celebrations. They have spent the past 30+ years building this sight to what it is today. I hope you consider this and many more when making decisions regarding this proposal.

Darrell Torix
Sperry, OK 74073

I take my family to the Castle in Muskogee as many times a year as I can. While I otherwise don't go to the area much when I am happy enough to be able to have easy access to the businesses in the area and easy access to the events. Instead of wasting money on new roads use the money to improve the existing ones, and in turn the area, and quit tearing up the environment just to throw money away. There are many who go down from this area just to see the castle events. From the perspective of someone who drives 2 hours with a group of anywhere between 2-6, with easily 15 mentions of the castle to new people in a months time between events, it would be horrible to lose such a huge attraction. Especially since I personally have seen people from the attractions stopping at other local businesses.

Jan 31, 2018

Highway 69 thru Muskogee is one of least investable locations in this town. There is more than a hand full of closed down business. Use that money to revitalize that part of town and entice future investors. Future commuters should have a reason to stop in Muskogee, other than for gas at the recently opening QT.

Jonathan Arias
Muskogee, OK 74403

Mary
Tulsa, OK 74107
Jan 31, 2018

I oppose Odot's poor planning and thoughtlessness on what it will be doing to the taxpayers before during and after this proposed construction should take place. Just to attempt to save a couple minutes off a travelers commute. It's not worth it especially when it's the community that is footing the bill and would have to live with the stalled local commute due to construction barrels and single lane roads to travel on.

Serita Wright

Jan 31, 2018

they need to quit wasting money and time on things that aren't broken And start paying attention and working on things that are important and broken. they are GOING TO be taking away from business that have built up in around Muskogee that is helping economically if they move the high way it will by pass and take about 18-26% of the revenue that is helping Muskogee away from this town and send it down the highway somewhere else(not Oklahoma). I oppose!!!

Michella Angeliqua Wainionpa
Muskogee, OK 74403
Jan 31, 2018

I may not live in your state but every year I come to enjoy The Castle at Muskogee. This attraction is a large revenue generator for the surrounding area and any plan that does not respect its boundries is harmful to the surrounding area.

Don't destroy The Castle of Muskogee to save a few minutes

Daniel Perry
Tahlequah, OK 74464
Jan 31, 2018

I travel to Muskogee going up and down highway 69 and they do not need a bypass. It does not take but a few minutes to go through that wonderful town . It also takes away from business that reside in that town. Plus there is this wonderful castle that is sitting in some beautiful land for people to take kids for all kinds of different events and if they can not have room to expand for attractions then how do you expect it to survive! Let's rethink this highway!

Glenn chaney
Oklahoma City, OK 73120
Jan 31, 2018

There is no reason for this bypass and will cost the city of Muskogee revenue for a convenience of what 5 minutes.

Danny Laffoon

Please think this decision through. The Castle of Muskogee is a part of the community. The folks behind the Castle have worked hard for years to build it up to make it what it is. It brings money into the community. Have you tried to get a hotel room in Muskogee during The Renaissance Festival? The majority of the rooms get booked quickly. Don't destroy an icon of the community and a part of the community income, as well as family traditions just to speed transit time up from Point A to Point B.

Jan 31, 2018

If the road goea through the castle of Muskogee property it will go right thru our haunt that we work on for 6 months a year, we do it as a family and look forward to it. I have worked there 6 years. We have between 800 to 2000 people come thru our haunt every weekend in october. People come back from all over to see our haunt. If you take it out we lose those people coming to muskogee going to castle, staying in our hotels, eating at our establishments maybe even shopping in muskogee. Please reconsider, maybe take the money and fix our roads put up signs aboyt the muskogee turnpike to peak blvd to go around. Please consider everything!!!!!!

Billie seth
Muskogee, OK 74401
Jan 31, 2018

Stupid idea. Cost is not worth rerouting around Muskogee.
